**Program Department
National Awards Program**

by Beryl W. Love
National Programs Director

What has your post and department accomplished this past year that deserves recognition? This is the first sentence of the section, on this topic, that appears in the AMVETS Programs Manual.

Participation in the Awards Program is very limited and those Posts and Departments that do participate have many questions each year. The information contained in the programs manual is currently the only source document on the selection criteria for these awards and it is very vague.

It is my goal to encourage more participation by clarifying and/or adding some additional interpretation to the selection criteria. The independent judges have a very difficult time in making their selections because of the wide range of submissions, both in content and format.

BASED ON THE 2005 ENTRIES WE ARE GOING TO MAINTAIN THESE REQUIREMENTS. WE DID NOT RECEIVE MORE SUBMISSIONS *BUT THOSE RECEIVED WERE MUCH BETTER ORGANIZED AND FACILITATED THE JUDGING.*

Entries for all of the 2007 National Awards must be submitted in this format.

1. A “presentation” notebook, (3 ring binder.) Not just a scrapbook of “all” of your post/department activities throughout the year.
 - a. It must have a minimum of (4) tabs, sections. (You may have additional sections.)
 - 1) **Award Category** (Americanism, Community Service, ROTC, Special Olympics, AADAA)
 - a) Ultimate goal of the project. (What did you want/plan to do?)
 - 2) **Description** (Describe the project in non-technical terms, how did you accomplish your objective. Your results.)
 - 3) **Resources** (People, Equipment, Material, Locations, Support)
 - 4) **Documentation** (Photographs, Proclamations, Letters of endorsement, Letters of appreciation, Newspaper clippings, Video)
2. The focus should not be on “one” major event in the category you have selected to enter. The award, per category, is being judged on what your post/department has accomplished throughout the year. (e.g.) Four solid projects spread throughout the year involving 100 veterans, students or citizens at each event is generally going to provide more service and ultimate impact in the community than one major event that involved 200 people. (You may enter more than one category, however, each requires a separate presentation binder.)
3. If you plan on entering the Community Service category, it should be exclusive of the other four categories. (Community services other than Americanism, ROTC, Special Olympics, or AADAA.) **See reverse side for examples.**
