

DRAFT RESOLUTION 18-5

SUBJECT: TINNITUS & HEARING LOSS PRESUMPTIVE SERVICE-CONNECTION

SOURCE: NATIONAL HEADQUARTERS

WHEREAS, many veterans, whether or not they served in combat or worked in certain occupational specialties, have higher than average incidences of hearing loss or tinnitus as a result of their time in service; and

WHEREAS, in recent years, the second highest service-connected disability granted by the VA has been for hearing loss and tinnitus; and

WHEREAS, various studies indicate that the majority of servicemembers are exposed to some form of auditory trauma, including high-level repetitive noise, during their time in service leading to some level of hearing loss and/or tinnitus and given these findings, reasonable doubt must be resolved in favor of veterans who suffered hearing loss and/or tinnitus as a result of their service in the military; now therefore be it

RESOLVED, that AMVETS urge Congress and the VA to grant service-connection on a presumptive basis for any veteran diagnosed after discharge with hearing loss and/or tinnitus when there is evidence that the veteran:

- participated in combat operations;
- worked in a position or occupational specialty likely to have damaged the veteran's hearing; or
- was exposed to any form of auditory trauma.
